

Description

- › With an integrated LiFePO₄ battery, the E-Box offers you an all-in-one solution for your vehicle's energy autonomy.
- › Specially designed to fit under the passenger seat, this battery covers all the electrical needs of the adapted cell while taking up minimal space.
- › As an optional feature, you can also integrate the 12V distribution panel.

Features

- › **Fully integrated**
A single box containing the LiFePO₄ battery, the DC/DC charger, the AC/DC charger, the MPPT solar charge controller and the DC/AC converter.
- › **More powerful and longer-lasting**
Provides twice as much power as a lead battery while maintaining a high energy capacity. Up to 4000 cycles at 0.5 C charge and discharge.
- › **Wide temperature range**
Operating temperature ranging from -20 °C to 60 °C.
- › **Power supply prioritisation**
Thanks to the Box ACE Energy's built-in power prioritisation board, you can automatically manage the 230V_{AC} power supply when the vehicle is connected to the power supply via the external outlet.
- › **Communication**
Control the battery charging level and status via a dedicated mobile app.
