

### Use

- › The LDC battery range is primarily designed for deep-cycle applications, such as mobility devices, scooters, and electric vehicles.

### Specifications

	LDC12-25
	Reference 22613-01LFR
Electrical Specifications	Rated Voltage 12 V
	Nominal Capacity (20HR) 25 Ah
	Nominal Capacity (10HR) 22.6 Ah
	Internal Resistance 13 mΩ
	Max. Discharge Current (5s) 155 A
	Continuous discharge current 25 A
	Maximum load current 5 A
	End-of-charge voltage 14.7V – 14.9 V @25°C
Environment	Charge Temperature 0°C à 40°C
	Discharge Temperature -20°C à 55°C
	Storage Temperature -15°C à 40°C
Mechanical Specifications	Container Material ABS
	Dimensions (L x W x H) 18.1 x 7.7 x 17 cm
	Weight 6.4 kg
	Terminal T15(M5)
